## Floats & C-130 Fuel Cells

**Floats & Fuel Cells, Inc. (FFC)** in partnership with **D&D Enterprises** offers the latest design of C-130 Fuel Cells as the global leader in aircraft fuel bladder manufacturing since 1977 and the only Lockheed Martin Licensed Hologram Repair Facility in the world.

D&D Enterprises is a leading supplier and expert in the support of C-130 & T56 platforms, and has been for the past 25 years. As a preferred stocking partner of FFC's C-130 Fuel Cells, D&D Offers:

- Available stock for immediate delivery
- Comprehensive spares/repairs/exchange programs
- On-site support with 24/7 availability & response in direct partnership with FFC.

### KEY FEATURES

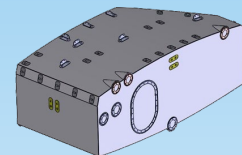

- C-130 Fuel Cells Drop-in Replacement
  - Fully interchangeable with OEM and approved manufacturers
- Proprietary nitrile rubber compound
  - Manufactured after years of research and development: *(Glue & Solvent made from same proprietary material)*
- Soft, flexible and easy to install without becoming stiff/brittle

### EXCEPTIONAL QUALITY

- Surpassed all FAA/PMATSO-C80 requirements:
- Construction qualified to MIL-T-6396
- Hand-built/autoclave cured, never cemented

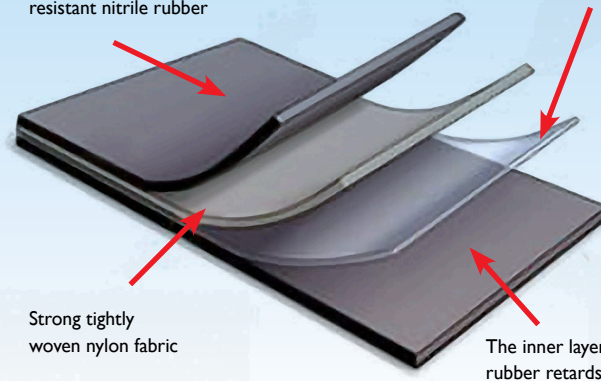

### Fuel Cell Proprietary Nitrile Rubber Compound

Stronger, longer-lasting and porosity resistant

Integral transparent fuel vapor barrier is bonded to the nylon fabric eliminating seepage problems.

Outer surface is ozone resistant nitrile rubber

Strong tightly woven nylon fabric

The inner layer of nitrile rubber retards permeability
